NUMBER	NAME	POSITION	JUSTIFICATION
25X1A9a			
1	[REDACTED]	Assistant Secretary, J.A.E.I.C.	Incumbent will serve as an Assistant to the Secretary for the J.A.E.I.C. In this capacity incumbent will monitor and assist in the J.A.E.I.C. exploitation of TALENT material applicable to atomic energy. His role will be chiefly that of one who coordinates the activities of the member agencies during the initial analysis by consultant groups, the preparation and dissemination of reports, and the follow-up action aimed at combining the results of the analysis with atomic energy intelligence from all other sources into National Intelligence Estimates.
25X1A9a			
1	[REDACTED]	Acting Chief, Applied Science Division	As Acting Chief, Applied Science Division, [REDACTED] is responsible for directing analysis and production of intelligence on Soviet aircraft, naval, biological and chemical warfare research and development on an all-source basis. Since TALENT coverage of the U.S.S.R. is an increasingly important source of information on Russian weapons, aircraft and naval vessel construction and deployment, [REDACTED] must be cleared to properly fill his present duty assignment.
